

The vision of Grup Barcelonesa, composed by an independent group of companies, is committed to provide sustainable value to its customers, suppliers and chemical partners worldwide.

With this aim, the scope of the activities of the companies is:

Barcelonesa

Production, commercialization and distribution of chemical products and food additives

Barnastock

Reception, storage, handling and control of hazardous liquids and solid, inflammable, corrosive, oxidizing, toxic, harmful, phytosanitary products and non-hazardous chemicals.

BDtrans

National and international road transport logistics management of hazardous, non-hazardous and conventional products.

The management of Grup Barcelonesa is aware of the importance of meeting the needs of our customers, shareholders, staff and society in general, as well as having safe facilities and activities for people, the environment and interested third parties during the development of our activity and it assumes as its own the following Fundamental Principles:

- > Satisfy the commitments taken with our suppliers and clients using a 360° service that provides real value and assures the product, service and availability according with its expectations.
- > Perform an efficient management that guarantees satisfactory economic results for our shareholders, always respecting our corporate values.
- > Comply with legal and regulatory requirements applicable to our activity, products, services and facilities in the fields of safety, environment, prevention of major accidents and prevention of occupational hazards as well as human and animal food safety.
- > Establish a process of quality continuous improvement, safety, pollution prevention, prevention of occupational hazards as well as animal and human food security.

In order to comply with these Fundamental Principles, Grup Barcelonesa Management establishes the following General Lines of Corporate Management Policy:

1. Consider the quality, environment, safety and health of people as key aspects of our operations.
2. Incorporate, as part of the strategic decisions of this Management, the principles and objectives of this Policy, ensuring the required allocation of resources for its achievement and effectiveness through improvement programs.
3. Actively integrate our staff, contractors and suppliers through training, motivation, awareness and participatory initiatives in the fulfillment of these principles.
4. Ensure an efficient process management in quality, safety, prevention of serious accidents and occupational hazards, through the application of an integrated management system aimed at prevention, control and minimization of incidents and committed to Product Stewardship.
5. Ensure a high level of protection of people, goods and the environment by implementing a prevention activity and effective control that is adequate to the inherent risks of our activity, products, facilities and processes.
6. Establish effective systems for the identification and control of major hazards taking into account the hazardous substances, processes and facilities involved, in order to adopt the correct protection measures that limit the potential consequences to the maximum.
7. Incorporate preventive actions as a fundamental aspect of our decision-making processes to avoid risks.
8. Meet the Grup Barcelonesa voluntary requirements, as a guarantee of excellence in our commitment to quality, environment, safety and occupational hazards.
